

ANILAN D228

Description

ANILAN D228 is a 40% active aqueous solution of a low foam salt free amphoteric surfactant. It acts as an effective hydrotrope in systems containing high levels of electrolytes. Anilan D228 provides good detergency and wetting action.

Typical Properties

Appearance	Clear liquid
Activity	40%
pH (20% aqueous)	9

Applications

All purpose cleaner over wide range of pH

Low foam and alkaline stability means that Anilan D228 is recommended for:

- car wash
- wax stripper
- acid bowl cleaner
- aluminium cleaner
- low foam carpet shampoos
- metal finishing
- concrete cleaner
- heavy duty degreaser
- oven cleaner
- electronic chemicals
- pressure washers
- automatic cleaning machines
- upholstery cleaners
