

ANILAN CDG

Description

ANILAN CDG is a coconut diethanolamide based on coconut oil.

Typical Properties

Appearance at 25°C	Viscous liquid
Colour	Pale yellow
Odour	Faint, characteristic
Water Content	1%
Glycerol Content	9.5%

Specification

Free amine (MMW 105)	5% max.
Ester content	6% max.

Applications

ANILAN CDG is a very good foam-boosting/stabilising agent when used in conjunction with lauryl sulphates and lauryl ether sulphates in liquid formulations. It also improves the texture of the foam. The use of this product provides an efficient means of increasing the viscosity of liquid formulations. ANILAN CDG can be used as solubiliser for perfumes and essential oils in cosmetic formulations.
