

ANILAN LF21A

Description

ANILAN LF21A is a low foaming biodegradable non-ionic surfactant.

Typical Properties

Appearance at 25°C	Clear colourless liquid
Density @ 20°C	0.97
Odour	Odourless
Solubility in Water	Slightly soluble

Specification

Cloud Point 1% w/v aqueous	28 – 32 °C
pH	6 -8
Water Content	0.5% max

Applications

Anilan LF21A finds application in the field of rinse aids and dishwashing where its low foaming properties and enhancement of drainage give an excellent spot free finish. Its low foaming and good wetting properties also make it useful in the fields of metal cleaning, spray cleaning and bottle washing. It will be of interest in any application where the use of mechanical agitation or spraying requires the use of a low foam surfactant in combination with an efficient wetting agent.
